WHO WE ARE

END-TO-END ACCESS EQUIPMENT PARTNER

EWP Australia is a specialist access-equipment business delivering complete lifecycle support for elevated work platforms and cranes. From independent inspection and 10-year major certification through to mechanical and hydraulic repair, scheduled maintenance and emergency breakdown response — and on to equipment hire, sales, finance and insurance — we keep critical lifting plant safe, compliant and productive.

Operating Australia-wide, our field service teams and workshop capability support asset owners, hire fleets, contractors, councils and government across every state and territory. We work across all makes and models, and every inspection is documented so your records stand up to audit.

The result is a single, accountable partner for the entire life of your access fleet — reducing downtime, protecting asset value and simplifying compliance.

WHAT SETS US APART

Independent & Accredited

Impartial assessment on all makes and models — not just what we sell or service.

Australia-Wide Reach

Field service and workshop capability across every state and territory.

Full Lifecycle, One Partner

Inspection, repair, maintenance, hire, sales, finance and insurance under one roof.

Audit-Ready Documentation

Every job clearly reported so your compliance records stand up to scrutiny.

INSPECTED TO AUSTRALIAN STANDARDS

AS 2550 — Cranes, safe use | AS 1418 — Cranes, hoists & winches | AS 2550.10 — EWPs

SERVICES WE PROVIDE

A complete, integrated service offering that supports access equipment through its entire working life.

01

EWP & Crane Inspections

Independent, standards-compliant inspections for elevated work platforms and cranes — routine, annual and pre-purchase — across all makes and models.

02

Major (10-Year) Inspections

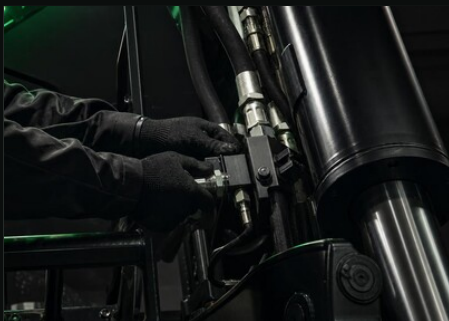

Full 10-year major inspections that strip, test and recertify ageing plant, returning it to a compliant, audit-ready condition.

03

Mechanical Repairs

Workshop and on-site mechanical repairs across every major brand, keeping downtime to a minimum and equipment on the job.

04

Hydraulic Services

Complete hydraulic diagnosis and repair — hoses, cylinders, pumps and valves — restoring safe, reliable performance.

05

Emergency Breakdown Response

Rapid mobile response when equipment fails on site, with field service units dispatched to get you moving again.

SERVICES (CONTINUED)

06

Scheduled Maintenance & Servicing

Planned, preventative servicing programs that maximise fleet reliability, safety and residual value.

07

Equipment Hire & Sales

A large, well-maintained fleet of access equipment available for hire or purchase — new and rigorously inspected used units.

08

Equipment Finance

Flexible finance structured around your cash flow, so you can put the right equipment to work without draining capital.

09

Equipment Insurance

Cover for your access equipment against damage, theft and downtime — arranged alongside supply, finance and servicing.

ACCESS EQUIPMENT

OUR FLEET

A large, well-maintained fleet of booms, scissor lifts, mast lifts, telehandlers and cranes — available for hire and sale, and backed by our engineering standard. Below is a selection; inventory changes regularly.

**FRANNA**

Franna AT-40 Pick & Carry Crane
40t lift capacity

THE EWP AUSTRALIA DIFFERENCE

WHY PARTNER WITH US

01 Safety & Compliance First

Every inspection and repair is carried out to the relevant Australian Standards and fully documented — protecting your people and your compliance position.

02 Less Downtime

Preventative maintenance, rapid breakdown response and multi-brand workshop capability keep your equipment earning.

03 One Accountable Partner

Inspection, repair, maintenance, hire, sales, finance and insurance from a single team — no juggling multiple suppliers.

04 Independent Expertise

We assess and service all makes and models impartially, giving you honest advice on repair, replace or refurbish decisions.

05 Protecting Asset Value

Disciplined servicing and accurate records maximise reliability, residual value and resale confidence.

06 Genuinely Australia-Wide

Consistent capability across every state and territory, metro to remote.
